DOCTOR HOOFLAND'S

CELEBRATED

GERMAN BITTERS,

PREPARED BY *Dr. C. M. JACKSON, Philad'a, Pa.*, WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice, *Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach,*

Such as Constipation, Inward Piles, Fulness, or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots of Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c.

Sudden Flushes of Heat Burning in the Flesh, Constant Imaginings of Evil and great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following from your own State is respectfully submitted, referring any who may still doubt, to my "Memorabilia," or Practical Receipt Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

Principal office and manufactory 120 Arch st., Philadelphia, Pa.

TESTIMONY FROM MAINE.

Capt. Daniel Hewitt, Brooklin, Maine, July 16, 1853, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock; at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 26, 1851, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs Jos B Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side *for six or seven years*, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK,

Salmon Brook, Aroostook Co., Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally—and by J. S. Ingraham, Bangor; W. B. Morrell, Dexter; E. B. Fiske, Lincoln.

KENNEDY'S MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no its nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week.—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

G. W. STONE'S

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only possesses all the effects where a physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, Tic Doloreux, Gout, Pain in the Head, Side, Stomach, &c.

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, and CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly test ed its merits. Reader, if you have tried other remedies, without success despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them.—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

HARRISON'S

Columbian Tonic Stimulant

WILL cure all diseases caused by prostration of digestive power. Its action is immediate, as a stimulant to rouse the vital energy to its healthy force, as a tonic, to sustain and perpetuate that force till healthy secretions are restored and natural power returns. It will remove all mild forms of Cholera, Cholera Morbus, Dysentery, Bilious Cholic, Fever, and Fever and Ague, and in connection with *Harrison's Columbian Vegetable Emetic*, will cure the most severe cases of these and other acute diseases in the shortest possible time. The Dyspeptic finds immediate relief, and permanent cure, in its use. For all Bronchial and Pulmonary affections, it has great restorative efficacy.

It is an exclusively vegetable composition, and a pure tonic and stimulant, without the slightest poisonous property in its composition or action on the system. The friends of Temperance then will find it an agent of great potency in their cause, and that the vitiated cravings of a diseased appetite under its use will give place to healthy action and natural desire. It is delicious to the taste, and grateful to the sensibilities of the stomach. It may be taken in its present form, *a rich syrup*, or in water, making *a delightful beverage*. As a daily beverage, its deliciousness is *unequalled* by any fermented or alcoholic preparation. It prevents as well as cures disease. HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment, and Humor Syrup,

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are not ignorant of its operation. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING to those afflicted with any kind of Humor, and really one of the greatest blessings to mankind ever before the public, as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

Lawrence, June 12, 1854.

We, the undersigned, citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr E. D. Hayes of this city, and being personally acquainted with the Doctor, feel pleasure in adding our testimony to all the Doctor claims for his medicine. Unlike other remedies in the market, this preparation performs its cure speedily and with certainty. The Ointment we have used with the most happy result, after vainly seeking relief by the free use of Sarsaparillas, Salves, etc., etc.

Our experience fully justifies us in confidently recommending it as the article, and the only one known to us as performing all it claims.

A. S. BUNKER, A. W. STEARNS
S. THOMPSON, ASA T. SANBORN.

IT CURES

The Salt Rheum, Scrofula, Erysipelas, White Leprosy Cancerous Humors, Ring Worm, Scald Head, Burns and Scalds, Chilblains, Piles, (a preparation expressly,) Barbers' Itch, Fever Sores and all old Mercurial Sores however long standing. It removes all those vexatious Pimples, Eruptions and Moth or Mildew from the face, leaving the skin perfectly soft and smooth, adding greatly to the beauty of complexion. Never, in no case, will it leave the least mark or scar. It will draw humors from the Stomach, Lungs, Throat, and from the Head and Eyes, by an outward application. It improves the sight wonderfully, where the eyes are troubled with humors, by removing the difficulty, and restoring the sight.

The Republican Party of Massachusetts

Has been inaugurated under the most encouraging circumstances. It has its basis in that great and patriotic Whig party which for so long swayed the destinies of the Old Bay State, and has ever been a party in favor *both* of Freedom and the Constitution. The Republican party will draw its greatest strength from the patriotic Whig party—but it will also embrace the former Free Soil party of Massachusetts, large in numbers, and most respectable in character—and will likewise attract to itself thousands of men who in former days ranked under the name of Democrats.

The nomination of Hon. Julius Rockwell by the Worcester Convention, was, as we have before remarked, a most wise and fortunate movement. It stamps the Republicans of Massachusetts as a party of moderate but determined opposition to the extension of slavery,—without fanaticism, and having due regard to all constitutional obligations. It is not a disunion party,—as has been falsely alleged. It proposes no attack upon the constitutional rights of the South, nor upon the existence of Slavery in the States where it is established; it only proposes *to limit the institution* where it now is within those States—and this we have a right to do under the constitution as expounded by Washington, Madison and Jefferson. The National Government has a right to make freedom national.

The Boston Times and Boston Post (both very much alarmed in view of the auspices under which the new movement is started) make the following outrageously false statements in regard to the Republicans:

They would divide, distract, destroy. They would place firebrands in every Southern city. The issue they have declared in their address—"Slavery or Freedom everywhere." They have pronounced for the crusade against slavery. They have hitherto been willing to concede that slavery might exist in those States where it is already established. They now go farther. They now cry, "Down with it everywhere." Let the consequences be what they may down with it. Destroy your Union—[illegible] your flag. Let utter annihilation as a nation ensue, rather than continue the institution.

To see how utterly false are these assertions, let any man but read the resolutions of the Worcester Convention as follows—they bring precisely in the spirit of the Address:

RESOLUTIONS.

Resolved, That Slavery *as a State institution* is [illegible] *than our power of responsibility*, but slavery, in relation to the nation, is the concern of every man in the nation in its relation to the free States is the concern of every man in the free States.

Resolved, That the increase and advance of slavery, the additions to the number of slave States, the successive triumphs of slavery in the political contests of the last half century, the control of slavery over all departments of government, the experience of the last few years in the legislative, executive and judicial departments, and more especially the repeal of the Missouri Compromise, have made slavery in its national relations, and in its relations to the free States, the paramount practical question in the politics of the country.

Resolved, That Massachusetts, the earliest battle ground of freedom, gives her heart and hand to Kansas, the latest battle ground of freedom.

Resolved, That the repeal of the Missouri Compromise makes every inch of the national domain a battle ground between Freedom and Slavery—It makes the admission of every new State a conflict between Freedom and Slavery. The issue thus forced upon us we accept. We commit our cause to God and our country. Let it be by no fault of ours if another slave State is added to the Union or any of the territories left open to the possibility of Slavery.

Resolved, That we tender no geographical or sectional issue, nor will we be deterred from our duty by the fear of one. The repeal of the Missouri Compromise has erased the geographical line. Our principles are national and general—Our spirit is national and liberal. We seek sympathy and co-operation from all parts of the land, we look for the members and candidates from South and North, East and West. Our principles do not justly lead to a sectional issue. If the slave power raises one, the fault is theirs, let the victory be ours.

Resolved, That we require no conformity of opinion on the other subjects on National or State policy. No man surrendering or qualifying his opinion on those subjects, we will recognize the duty of making the question of Freedom paramount. To secure unity of action here, we attempt no unity of action elsewhere.

Resolved, That we accept the name of the REPUBLICAN PARTY, which has been adopted by our friends and fellow laborers in other States—We unite in that party to assert the great principles for which we contend, and to carry them to a triumphant issue.

The platform and the candidates of the Republican Convention, are cordially embraced by nearly every Whig paper of the Commonwealth. We give below a few extracts, showing the spirit of the old Whig papers, and among them some which have ever been deemed eminently conservative:

[*From the Boston Atlas.*]

The platform adopted by the Convention is, in every respect, an admirable one, and we heartily accept it in all its length and breadth. Drawn with unusual elegance and precision, carefully guarding against undue caution on the one hand, and excesses of speech or sentiment on the other, firm, but at the same time respectful and conciliatory, it is an avowal of political faith, from which no man at the North or the South ought to shrink. In calm and dignified language, it asserts hostility to slavery extension, while at the same time it expressly repudiates all desire to interfere with slavery as a State institution. There is literally and absolutely nothing in the Address and Resolutions to justify the parrot-like cry of "disunion," which will be raised against it by the bigoted and brainless. But the people of Massachusetts are not to be cheated by meaningless shouts, or deceived by baseless slanders. The citizen who accepts the simple truth here plainly but temperately stated, and who pursues the political course here indicated, has quite as good a claim to be considered conservative in character and national in sentiment, as the tide waiters and tax gatherers of the government, full as they are of pap and patriotism.

The nominations of the Convention are judicious and timely, and shall receive our hearty support. Hon. Julius Rockwell, our candidate for Governor, for years known as a staunch and unflinching Whig, will bring to his new political relations the same talents, firmness and fidelity, which he has exhibited in the past. He is a man who has been trusted by the Whig party for years, and he is equally trustworthy now.

[*From the Springfield Republican.*]

The Child is Born!—The Republican party in Massachusetts organized itself in great strength, and with entire harmony, at Worcester, yesterday. The platform is most admirable; it is explicit in all respects, radically conservative, and written with condensed and comprehensive power, that distinguishes it from all ordinary productions of this nature. The principle, the movement and on all hands a full and hearty endorsement.

In the matter of the candidate for Governor, there was a severe difference of opinion; but the nomination was happily conferred upon Julius Rockwell, late U. S. Senator, of Pittsfield. The rest of the State ticket was made up without difficulty, and to general satisfaction; Lieut. Governor Brown being nominated for re-election, as, also, were the present Auditor and Treasurer, while Judge Hoar was selected for the second most important post, that of Attorney General, and George F. Williams, of Cambridge, a Free Soiler of some legislative experience, for Secretary of State, in the place of Ephraim M. Wright.

Thus has the Republican movement sprung honorably and powerfully into existence, in spite of the cold inactivity of timid friends, and the treacherous favor of real enemies. Thus have the people triumphed over the jargon of parties and the ambitions of men. The dangers that threatened the convention from the bad faith of Gov. Gardner and his most zealous personal adherents were made to pass away, after a struggle, and the results of the meeting will, we feel assured, be accepted with satisfaction and confidence by all who believe in the great principle that called them into being, and brought them out of their environed dangers.

[*From the Boston Traveller.*]

The convention resulted in the election of a new standard-bearer for the new party—Julius Rockwell, of Pittsfield, a man, by no means unknown in our political history, but yet eminently fit to inaugurate a new party, whether we regard his antecedents or his present position. * * * *

The result, so far as the object of the fusion movement is concerned, must be regarded as satisfactory. A Republican party is inaugurated, and its nominee for the Chief Magistracy is a worthy representative of the idea upon which the party is based.

[*From the New Bedford Mercury.*]

Mr. Rockwell is well known as a fearless and able advocate in the cause of freedom, and has been prominently named as the candidate of the Whig State Convention, to be held at Worcester on the 2d of October. His election to the Chief Magistracy would redeem the sullied political integrity of old Massachusetts.

[*From the Boston Daily Advertiser.*]

"The nomination of Mr. Rockwell is certainly a good one. He has done the State good service and has creditably represented it in the councils of the nation as a Whig. His name will, of course, come prominently before the Whig Convention on the 2d of October. Indeed it has already been frequently suggested. Unless it shall appear that he has renounced his allegiance to whig principles, which we do not understand that he has, he will be very likely to receive the whig nomination, and to be elected."

How it appears abroad.—The Washington correspondent of the N. Y. Courier & Inquirer has the following remarks respecting the policy of Whig and Democratic coalitions.

Some of the Whigs in those States in which the party appears finally broken up, have joined Democratic coalitions, as in Maine, under the idea that to set the Democracy on its legs is a necessary preliminary to the restoration of Whigism. There never was a more lamentable mistake. If by such assistance, or any other means, the Democrats are permitted to succeed at the coming fall elections, that success will afford the surest guarantee of triumph in the Presidential contest of 1856. It is the true policy of opposition to identify the Democratic party with the administration, and to crush them both together. They are now in the same ditch and should be kept there, and any Whig or Republican who contributes in the slightest degree to rescue them from their present prostration, will incur the responsibility of continuing the present dynasty in power, and of enduring the outrageous measures which have excited the indignation and abhorrence of the country.

Bishop Doane of New Jersey, has deposed his son George Hobart Doane from the Episcopal ministry, because of his "intending to submit himself to the schismatical Roman jurisdiction." In a note the bishop says—

"This sentence was not executed until the provision of the canon, 'where the party has acted unadvisedly and hastily,' which in precisely the present case, had been offered, urged and refused. It only remains for me humbly to ask the prayers of the faithful in Christ Jesus, that my erring child may be brought back to the way of truth and peace, and, for myself, that I may have grace to bear and do the holy will of God."

The Festival of the Unitarian Sabbath School, will take place this afternoon, if the weather is pleasant.

Quite a scene.—A correspondent of the Traveller gives the following sketch of an exciting scene at the Vermont State Fair. It should suggest caution at other exhibitions.

One of the horses attached to a trotting gig by some means getting loose from his driver, commenced running among the crowd and other horses. Striking another horse in his course he frightened him also, and he too commenced this course and running on to the course where several horses were drawn up, running against another set him to running, and so on communicating the panic till there was no less than seven spirited horses with broken gigs attached running at the top of their speed along at our 150 horses and the multitude, and, at one time it seemed as if every horse on the ground was about to be let loose among the dense crowd of men, women and children, who surrounded the track.

To add to the confusion of the moment those who had horses thus exposed naturally wishing to put them in safety, commenced driving them off in all directions, all of which, seen as it was by your correspondent from the gallery, fronting the track, presented about as frightful a scene as could be imagined. But strange as it may seem, no one was killed.

"There was a Frog that Lived in a Well."—One day last week a lady was passing up Essex street, and when near an "Orange County" milk depot, saw the storekeeper at the door with his right hand immersed in a milk can. He was making violent demonstrations to obtain something from the can, and this attracting the attention of the lady, she awaited the result. Presently the man, who happened to be a native of "Faderland," drew from the can by one of his hind legs a large sized bull frog.—Without considering the injury which he might sustain in his business by an exhibition of this kind, he unceremoniously dashed the frog upon the sidewalk, and carried the can of milk into the store, where it was duly retailed to his evening customers.—*N. Y. Post.*

Queer Remedy for Whooping Cough.—The Springfield Republican says:

A very great relief we are assured upon practical knowledge, is obtained by wearing about the neck a fresh tarred rope of the size of a bed-cord, covered with a thin ribbon. The aroma of the tar has a wonderful effect, in quieting the cough and preventing the spasms.

Variation.

Beneficial Effects of Ashes.—Ashes neutralize acids in the soil, warm cold, mucky, wet places; destroy worms and insects, dissolve the coarse fibres and stalks, and make hard clayey soils, open, loamy and fertile.

German silver spoons of a yellow color contain copper and arsenic, and should never be used.—Pure German silver is white.

Make the Living Happy.—If we were only half as lenient to the living as we are to the dead, how much happiness might we render them, and from how much pain and bitter remorse might we be spared when the grave, the "all atoning grave," has closed over them.

Nearer Home.—How few of us realize that as we rise each morning, and commence our various avocations, that we are one day nearer our final home.

Hope is the last thing that dies in man; and though it is exceedingly deceitful, yet it is of good use to us.

In the intercourse of our life we are more frequently pleased by our faults than by our good traits.

With love the heart becomes a fair and fertile garden, glowing with sunshine, and warm hues, and exhaling sweet odors; but without it, it is a bleak desert covered with ashes.

Many a female who would not refuse to dine with a profligate rake, would think herself foully insulted, were she invited to take tea with a courtesan, but the only difference between the two is, one wears pantaloons, and the other petticoats. The moral is the same.

Why did Job always sleep cold? Because he had miserable comforters.

"So far, so good," as the boy said when he finished the first jar of his mother's jam.

"That man's a shoemaker, I'm sure," said a worshipful magistrate to his colleague, the other day, in petty sessions on the Tyne. "You're a shoemaker?" continued he addressing the man at the bar.

"Yes, sir was the reply, "a *horse* shoe-maker." (A horse laugh.)

A conductor on the Sixth Avenue Railroad, New-York, has been arrested on charge of defrauding the company of *sixty six cents*.

Why didn't the goose go to the extent of a couple hundred thousand and get the sympathy of people?

Jurors are yet scarce about the Court-House.—The Sheriff has to run down and capture citizens one at a time. People are all busy with their own business, and most any man would rather pay a fine of twenty dollars, than be compelled to sit upon a jury.—*Minnesotian.*

Fights are very easily got up. All that is necessary are three participants, two blockheads, and a pint of new rum.

A correspondent of the Bath Mirror, writing on the spot says

"Wiscasset is bounded on the north by land—on the east by water and a bridge—west by land—south by land and water, and besides two stage lines, there is a *telegraph wire runs through the place.*"

The Republican Movement.—We know that some of the leading "strait out" Whigs in this State, when they declined last winter to join the formation of the Republican Party, thought it would prove but a temporary affair while the old whig party would still live. Still more recently, the editor of the State of Maine made it apparent in his paper that he flattered himself with the idea that Wm. H. Seward and Thurlow Weed would resist this movement, and would seek to preserve the old Whig organization—and it was supposed, too, that in such states as Vermont and Massachusetts, where the Whigs have been strong there would be insupportable objections to giving up that name and organization. But it is now plain that all these calculations were erroneous—Vermont stands out in bold relief in favor of the Republican Party, while strait out Whiggery is known in that State only as a poor, despised ally of the Nebraska Democracy. In Massachusetts, too, although just at this moment the movement is surrounded by numerous difficulties growing out of the Know Nothing organization, the party will be organized, and whatever may be its success in the coming State election, it will surely sweep the State next year. Those who suppose that Wm. H. Seward and Thurlow Weed would fail to see the propriety and necessity of the movement, will find themselves mistaken, as every number of the Albany Journal, their organ, now demonstrates.—*Portland Advertiser.*

Theory of Yellow Fever. Doctor J. C. Nott, a distinguished physician of Mobile, has written to the National Intelligencer a letter respecting the yellow fever, which possesses much interest, coming from such a source. He says that the yellow fever has at long intervals, not only in the Mediterranean, but in the United States, taken on a sort of traveling character, and starting from some parts of the country which is always liable to its ravages, gradually extended from year to year the scene of its operations until it has arrived at the extreme limit of its influence. Thus, fifty years ago the fever extended from Rio Janeiro to Southern ports, from Southern ports to Norfolk, and thence to Winchester, Philadelphia, New York, Catskill, Hartford and Middletown. So two years ago it commenced extending from Rio Janeiro along the Caribbean, Gulf and Atlantic coasts, until now it has reached Norfolk. Some time since, judging by the data furnished by records of the past, Dr. Nott foretold that the epidemic would extend to Norfolk, and that it would probably visit some of our more Northern cities, where it is known to occur sometimes. This last part of his prophecy remains to be verified.

Dr. Nott says there is no doubt that the present yellow fever in Norfolk is substantially the same disease as the yellow fever which occurred in Philadelphia in 1793. With regard to the immediate contagiousness of the disease or the communication directly of yellow fever from one human being to another, he is uncertain; but he does not see how any human being familiar with the history of the disease can doubt of its portability by vessels and railroads from place to place. The disease has gone to every point within a certain distance of the Gulf of Mexico, which was frequented by steamboats and railroad cars. With regard to the treatment of the fever, Dr. Nott remarks that it is a disease of low action, which will not bear active medication. More good may be effected by nursing and constant attention than by violent remedies. His letter concludes with the remark that "epidemics are scourges sent by the Almighty, and not only are we without remedies against them, but in the face of the most opposite plans of treatment, the per centage of deaths continues about the same in all times and in all places."—Boston Journal.

High Life. A writer in the New York Evening Post estimates the expenses of a gentleman and lady boarding at one of the hotels at Newport for ten weeks, with the extra charge for washing, bathing, rides, concerts, &c., at the most economical rate, at two thousand dollars! Hundreds spend that amount in half the time.

Cultivators of the earth, said Thomas Jefferson, are the most valuable citizens. They are the most vigorous and most independent and they are tied to their country, and wedded to its liberty and interests, by the most lasting bonds.

Editorial Life in California.—It is a tolerably general idea in the Atlantic States, that a California editor is constantly in fear of being killed, or at least frequently shot at.—The editor of the Golden Age, an excellent San Francisco paper very neatly hits off Eastern ideas of California civilization. The following, he says, is a specimen of the daily routine of an editor's life in San Francisco:—

"First, gets up in the morning at ten o'clock; dresses himself, puts on his hat, in which are six or seven bullet holes, and goes to a restaurant for breakfast. After breakfast, starts for the office to look over the papers, and discovers that he is called a scoundrel in one of them, a liar in another, and a puppy in another, he smiles at the pleasing prospects of having something to do, fills out and dispatches three blank challenges, a ream or two of which he always keeps on hand, ready printed, to save time, commences writing a leader, when as the clock strikes eleven, a large man with a cowhide in one hand and a pistol in the other, and a bowie-knife in his belt, walks in and asks him if his name is ——; he answers by knocking the intruder down two pair of stairs with a chair.

At twelve o'clock finds that his challenges have been accepted, and suddenly remembers that he has a rifle affair of that nature to settle at the beach that day at three o'clock, goes out, kills his men, then comes in and dines on stewed grizzly. Starts for the office, while going there gets mixed up in a street row, and has the heel of his boot shot off by accident, laughs to think how beautifully it was done, arrives at his sanctum, and finds an 'infernal machine' upon the table; knows what it is, and merely pitches it out of the window, writes on 'moral reform' and then starts for the theatre, is attacked on the corner of a dark alley by three men, kills two of them, and takes the other to the station house. Returning to the office at eleven o'clock at night, knocks a man down who attempts to rob him, kills a dog with a piece of paving-stone, gets run over by a cab, and has the tail of his coat slit with a thrust from a knife, and two bullet holes put through his beaver as he steps within his own door, smiles at his escapes, writes until two o'clock, and then 'turns,' with the happy consciousness of having two duels to fight the next day."

Passmore Williamson a Candidate for Public Office.—The tyrannous stretch of power by Judge Kane in shutting Passmore Williamson in prison, for a constructive contempt of the Court over which he unworthily presides, is already producing the fruit which political oppression is sure to bear in a free Government. He is, while in his cell, was selected by acclamation and with great enthusiasm, as the candidate for Commissioner of the Pennsylvania Canals, at the Republican Convention held at Pittsburgh on the 12th of September.

The spring with which human nature reacts against injurious force, harshly applied to worthy and innocent men, is one of the ancient exhibitions of the divine principle of Humanity. Unjust as was Kane's exercise of power over Williamson, it was still more stupid. Free Politics were certain to avenge the convict upon his arbitrary Judge. The compensation for his injuries, of influential office, could have been calculated on with certainty. With equal certainty could have been anticipated a retaliatory movement, which shall cast Judge Kane out of his place, or deprive him of the advantages of it if he shall obstinately maintain his hold upon the Bench. This is to come. Justice to Williamson has begun. In the Convention which nominated him to the most responsible office of Commissioner, many names before it came under discussion, and were warmly urged. But the moment that Passmore Williamson's was mentioned, an uncontrollable determination to have him for the nominee, was manifested. It was deferred to. May this proper tribute to his wrongs, be the herald of his own election, and his Party's triumph!—*Albany Journal.*

The Harvest Hymn.

God of the rolling year! to Thee
Our songs shall rise—whose bounty pours
In many a goodly gift, with free
And liberal hand our autumn stores,
No firstling of our stock we slay,
But on thy hallowed shrine we lay

Borne on thy breath, the lap of Spring
Was heaped with many a blooming flower,
And smiling Summer joyed to bring
The sunshine and the gentle shower,
And Autumn's rich luxuriance now,
The ripening seed—the bursting shell,
The golden sheaf, the laden bough,
The fullness of thy bounty tell.

No menial throng, in princely dome,
Here wait a titled lord's behest,
But many a fair and peaceful home
Hath won thy peaceful dove a guest,
No groves of palm our fields adorn—
No myrtle shades or orange bowers—
But rustling meads of golden corn,
And fields of waving grain are ours.

Safe in thy care the landscape o'er,
Our flocks and herds securely stray,
No tyrant master claims our store—
No ruthless robber rends away,
No fierce volcano's withering shower—
No fell simoom with poisonous breath—
Nor burning suns with baneful power,
Awake the fiery plagues of death.

And here shall rise our songs to Thee,
Where lengthened vales and pastures lie,
And streams go singing, wild and free,
Beneath a blue and smiling sky,
Where ne'er was reared a mortal throne,
Where crowned oppressors never trod,
Here—at the throne of Heaven alone,
Shall man in reverence bow to God.

VALUABLE

Mill Property for sale.

THE valuable Mill Property formerly owned by Clarkson Martin, in the town of Starky, Yates County, New York, consisting of a Stone Grist Mill, with two runs of stones, a good Saw Mill, 1 [...] house and Barn, and twenty five acres of Land, will be sold on terms to suit purchasers, at a *great bargain*, to any one desirous of procuring such a location.

The Grist Mill is well built, in good repair, within about two miles of the flourishing village of Dundee, on Big Stream, and has an abundant supply of water at all seasons. It is situated in the heart of the heart of the rich agricultural country on Seneca Lake, unrivaled for its fertility, and accessible by different Rail roads from all parts of the Union, being but a mile and a half from the Canandaigua and Elmira Railroad, and commands a large share of the custom work and flouring business of the surrounding country.

The Saw mill is in good repair, with a Lath Machine thereto attached, and capable of manufacturing a great quantity of lumber and laths during the year. A part of the land is good for agricultural purposes, the balance, lying on the stream, affords, with the dwelling house and out buildings, a convenient and comfortable home for the mill attendants.

The roads to and from the Mill are convenient and in good order. The title is indisputable, and the opportunity is one that seldom occurs.

For further information apply to WHITNEY, FENNO & CO., Boston, Mass., or to N. RAPLEE or D. J. SUNDERLAND, agents at Dundee, New York.

Decidedly the greatest Medicine for the Least Money in the world

The Ladies all like them for they are sure to do them good.

The Root and Herb Bitters have cured the past year,

19,000 cases of JAUNDICE
14,000 cases of LIVER COMPLAINT,
17,000 cases of DYSPEPSIA,
20,000 cases of BAD HUMOR,
25,000 cases of COSTIVENESS,
13,000 cases of PILES,
19,000 cases of COUGHS and COLDS, and have cured and benefited more than 200,000 persons besides.

Diseased liver—ferment of the vein,
Wan, aught and conquered by great Langley's plan,
Vampire sour Jaundice, trembling fled the field,
By Langley's Bitters forced at last to yield—
The dread Dyspepsia left it scene of strife,
Nor dared to face the sterner draught of life
Bile Headache, Humors, Piles and Costiveness,
Those dreaded ills which cause such wretchedness,
By Langley's Bitters, are forced to yield,
While health and Strength united take the field.
Are you temperance folks—when this medicine is used,
No alcoholic is by it infused,
Not used the food no longer feel nor longer alarm,—
To the convalescent hating it cannot do harm.

IMPORTANT PROCLAMATION!
A Great Mystery Explained.

In the year of our Lord 1847, in our capacities of analytical chemists, we discovered that by uniting certain vegetable agents, which had never before been used in medicine, we obtained properties possessing such a marvellous quick power over PAIN, that the moment it was applied to the parts affected with pain, all uneasiness ceased The most torturing pains were relieved in an instant, and the most violent spasms and irritations were soothed, and the system restored to perfect ease in a few minutes

In 1849 we introduced this Remedy to the world under the name of

RADWAY'S READY RELIEF

It has been used by hundreds of thousands throughout the United States, giving instant ease to all troubled with Pain or Sickness

One application externally, or a few drops taken internally, will instantly free the sufferer from the most violent and terrible pains, and restore the weak, feeble, and prostrated frame to strength and vigor.

No person has ever used RADWAY'S READY RELIEF without deriving some special benefit in less than fifteen minutes after its use

Let those who are now suffering any severe pain give it a trial, for in fifteen minutes they will enjoy ease and comfort

RADWAY'S READY RELIEF

was the first and is the only remedy ever discovered that will stop the most torturing pains in a few seconds, and free the system from Rheumatic, Neuralgic, Nervous, and Miasmatic Disorders in a few hours It will cure and protect the system against sudden attacks of

CHOLERA,	DYSENTERY,
DIARRHŒA,	CHOLERA MORBUS,
BILIOUS COLIC,	FEVER AND AGUE,
PNEUMONIA,	INFLUENZA

Bear in mind, it is a powerful Disinfectant, antiacid, diffusive stimulant, nervine, anti spasmodic, and counter-irritant

The R. R. REMEDIES are medical discoveries of the present century They are prepared on an entire new and original theory, "to stop pain instantly," and protect the human system against sickness or any sudden attacks. The doses required to be taken are small, A few drops of READY RELIEF exercise a powerful influence over diseased action

IT HAS CURED

Rheumatism in four hours,
Neuralgia in one hour,
Croup in ten minutes,
Diarrhœa in fifteen minutes,
Toothache in one second,
Spasm in five minutes,
Sick Headache in fifteen minutes,
Chill Fever in fifteen minutes,
Chilblains in five minutes,
Sore Throat in four minutes,
Influenza in one hour.

SPINAL COMPLAINTS, Stiff Joints, Cuts, Bruises, Wounds, Frost Bites, Cholera Morbus, Dysentery, The Dole eux, and all other complaints where there are severe pains, RADWAY'S READY RELIEF will instantly stop the pain, and quickly cure the disease

[For the remarkable efficacy of R. R. R. Discovery, No. 2, and the complaints cured by Radway's Renovating Resolvent, see in next week's paper.]

DR. J. H. SCHENCK'S

SEA WEED TONIC,

—FOR THE—

Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, to wit | *Sour and Sick Stomach, Loss of Appetite, Headache, Pain in the Side and Breast, Palpitation of the Heart Ulcers and Eruptions of all kinds, Chills and Fever Gravel, and Diseases of the kidneys, Nervousness, Weakness of the Limbs, Fainting Spells, and all diseases peculiar to Females*

Nearly every person is more or less afflicted with Dyspepsia, or some of the diseases connected with it and it is with feelings of pleasure that Dr Schenck can announce to all such the discovery of the virtues of the Sea Weed, which is just the remedy for their ailments Dyspepsia and the many diseases arising from it, is caused by the deficient secretion of the gastric juice, and weakness of the powers of the stomach. The effect of the Sea Weed Tonic is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juice, and the food is digested naturally In fact the Tonic so nearly resembles the natural gastric juice that chemists even find difficulty in distinguishing them It gives tone and strengthens the stomach, thus enabling it to secrete the proper quality and quantity of Gastric juice, and Dyspepsia and all its diseases soon disappear

It is a well known fact that none suffer like the Dyspeptic, for in addition to the Dyspepsia there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Gravel, Disease of the Kidneys, Nervous Weakness and Tremors, General Debility, Faintness, Loss of Appetite, Bad Taste, Fever, Stoppages in Females, all or each of them arising from a disordered state of the Stomach, and here is a newly discovered *remedy*, for the trifling sum of one dollar, that will cure all this train of disease!

Now, Dyspeptic, will you not avail yourself of this remedy for so trifling a cost? or will you still suffer on? The choice is for you to make The Sea Weed Tonic is a pleasant bitters, giving a person a good appetite and good digestion is put up in quart bottle, always agrees with the stomach, and *one bottle* generally effects a cure Whenever the bowels are costive, the tongue furred, or the complexion sallow, a few of Schenck's Mandrake or Liver Pills are to be used, A box of these Pills accompany each bottle of the Tonic, and will be found in a recess of the bottle covered with a label

SCHENCK'S

MANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, prompt to start the secretions of the liver and give a healthy tone to the entire system Indeed, it is no ordinary discovery in Medical Science, to have invented a remedy for these stubborn complaints, which develope all the results produced by a heretofore free use of calomel—a mineral justly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system That the properties of certain vegetables comprise all the virtues of calomel, without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied that the best medicines are those provided by nature in the common roots and herbs of the fields

The Pills open the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue

Ample directions for use accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills combined is only one dollar But separate boxes of Pills can be had of any of the agents for 25 cents

These remedies are prepared under the personal supervision of Dr J. H Schenck, proprietor of Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c, &c, and the inventor of the celebrated Respirometer, for examining and detecting all diseases of the Lungs, Heart, &c.

DR. J. H. SCHENCK'S

PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself many years ago, reduced so low as to be given up by his physicians and friends in the last stage of Consumption When all hopes of ever getting well had fled he was strongly recommended to use a Syrup made from an old Indian receipt, which succeeded in effectually curing him The family physicians and a large number of respectable gentlemen certified to the facts of this case, and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country. Creating, as this case did a sensation second to that only of a miracle, Dr Schenck was waited upon by many similarly afflicted, to whom he administered the Syrup with the same beneficial results In fact, such was the notoriety of this medicine, that eminent physicians had their attention drawn toward the rising reputation of it from having witnessed its curative powers and freely extended the hand of friendship and encouragement to Dr Schenck, and introduced the medicine to the public and used it in their daily practice

No other medicine performs, in the system in the manner that the Pulmonic Syrup does It produces a healthy action upon the diseased parts by purifying them from disease it promotes the expectorations, allays the cough, opens the matter on the lungs, and when it is discharged, it heals the opening that the breaking of the tubercles or abcess produces, and the lungs become sound and resume the performance of their natural functions it also soothes the irritated portion of the lungs and other organs, and thus restores these parts to health A superior property the medicine possesses over all others is, that it contains no opium, calomel or any other deleterious medicine

In 1841 Dr Schenck removed from Flemington New Jersey, to Philadelphia, and commenced the practice of his profession where he soon acquired a reputation excelled by none, in curing a disease that had heretofore been deemed incurable and he has since then daily presented to the world incontestible evidence of his success

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty

Thus left nearly the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr J H Schenck He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed for a long time, and to all appearance was past recovery He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup
